## Intersection between Art and Architecture.

How do you conceive a project which has the potential to become a monumental building of a capital city?

'Radhe Infinity' in Gandhinagar (one of the biggest mixed-use development projects of Gujarat), is proposed in the most prime location.

For us, as Architects, it was important to come up with a solution which was technically superior, commercially viable as well as aesthetically appealing.

We have always believed in creating 'value per sft' for our client as well as the end user. The design incorporates all the basic fundamentals of good Architecture viz. efficient space planning (floor plans), simple structural grid, good floor to ceiling height, ventilation, natural light, ample amenities, and above all a very efficient master plan.

We can confidently say that we have been able to achieve all the above parameters as well as create a nice balance between Art and Architecture.

'Radhe Infinity' is a 'complete package', which we are proud to design.

Krishna and Vishal Bhavsar  
IMBUE DESIGN

The greatest project in Gandhinagar, spread in excess of a million square feet. It brings a bonanza of formats for you to browse.
